## Would you like to become the owner of one of the villas at The Oasis Residence?

This exclusive complex is meticulously designed according to the principles of green building. It consists of 13 villas, 2 swimming pools, a massage room, a reception area, a bar, and a restaurant. Nestled within a magnificent palm grove in the heart of Jambiani, it is just 250 meters away from the sea.

**JAMBIANIGROUP LTD**, founded by Enrico Comunello and Sandro Gurioli, with its 15 years expertise on the island of Zanzibar, in both construction and hotel tourism, after the projects of Uzuri Villa, Mwezi Boutique Resort, The Loop Beach Resort and La Luna Suite Apartments, with **THE OASIS RESIDENCE**, offers you the opportunity to **"make your dream become a home"** and also to make an excellent investment, given the ever-growing real estate market in Zanzibar. Furthermore, if you wish, we offer you the option to incorporate your property into our rental circuit, enabling you to benefit from potential tourist rentals, gaining money back from your investment.

The sale of these villas is exclusively managed by us, without real estate agencies to guarantee an utmost confidentiality.

For further details of this project, please reach out to our representative, Mr. Billy Biliato. He will provide you with all the information you need, without any obligation on your part.
